

Honors Study

County College of Morris offers both full- and part-time students the opportunity to take honors classes or join the CCM Honors Program. Honors classes are designed to help exemplary students develop their special talents and enjoy an intensive and stimulating learning atmosphere. At CCM, we offer two honors class formats: Honors and Honors Option. Honors classes offer smaller class sizes in which all students enrolled are Honors students, while Honors Option offers those who excel in the core courses of their major or specific subjects an opportunity to achieve a higher level of competence in a regular section of a class. In addition to the standard assignments, students will complete an Honors project that relates to the course objectives, and they work closely with the professor to complete the assignment. Those who qualify may take as many Honors courses as desired. Please note that the courses offered vary per semester.

CCM Honors Program

The CCM Honors Program is a full program for a cohort of students. After applying to and being accepted into the program, students work towards earning honors designation on their transcript for their degree. In addition to the required number of credits, students must complete an honors capstone project that is presented at the Student Showcase hosted by CCM Honors.

To receive an honors designation on their transcript, students enrolled in Associate of Arts, Associate of Fine Arts, and Associate of Science programs must complete 18 credits of honors courses. Students enrolled in Associate of Applied Science programs must complete 16 credits of honors courses. If accepted into the Honors Program, students have access to numerous benefits which are outlined in detailed on the CCM Honors website.

For complete details, eligibility requirements, or questions about CCM Honors please contact us at honors@ccm.edu or visit the CCM Honors Website: <https://www.ccm.edu/honors-study/> (<https://www.ccm.edu/academics/honors-study/>)
