The College

History

County College of Morris (CCM) is located on 222 acres of rolling terrain in Randolph. The college first opened its doors to students in 1968 after Henderson Hall, the first building on campus, was completed. The first class consisted of 592 full-time and 703 part-time students. Enrollment grew quickly, and by the fall of 1969 five additional buildings were under way: the library, later named the Sherman H. Masten Learning Resource Center after CCM’s first president; Sheffield Hall; the Physical Education Building; the Student Community Center and a service building; all completed by 1970. In the fall of 1973, two additional academic buildings, Cohen and DeMare halls, were completed. In 1982, the college reached its highest enrollment of 12,012 students. That same year the Dalrymple House was renovated to house administrators. It was renovated again in 1994 to serve as a childcare center.

When President Masten retired in 1986, Dr. Edward J. Yaw became the second president of CCM. Under his leadership, the college continued to grow. In 1989, Emeriti Hall was added and in May 1993, the college completed a 20,000 square-foot expansion of the library. The expansion contained television and audio production studios, additional library seating areas and a 45-seat conference room.

Expansion of the campus continued in 1994 with the construction of two additions that joined the three academic science buildings. The 20,417 square-foot expansion added classrooms, laboratories, faculty offices, student lounges and an expanded cafeteria. In 1997, the college also opened a six-lane aquatic facility joined to the Health and Physical Education Building.

In 2004, the college broke ground for the renovation and expansion of the Student Community Center. By the Fall 2005 Semester, the building was open for students to enjoy. All enrollment and counseling functions were brought together in that facility including Admissions, Financial Aid, Academic Advisement, the Bursar and Counseling. The project also included an expanded campus store, renovated auditorium, cafeteria, game room and television lounge. One more exciting feature included a teaching kitchen, plus a dining/conference room for the Hospitality Management Program.

Following completion of the Student Community Center project, the college renovated Henderson Hall, CCM’s oldest building which opened in 1968. The renovation, completed in the spring of 2008, houses most of the administrative functions of the college, plus four general purpose classrooms and two corporate business training rooms. That same year, the college celebrated its 40th anniversary. In those 40 years, CCM had graduated more than 40,000 students who were employed in all sectors of the county, most notably half of the county police force and half of the county nurses.

The 2008-09 academic year was also marked by more renovations. Many parking lots, sidewalks, stairs and athletic fields were renovated. In addition, nursing laboratories were renovated along with major renovations to the interior and exterior of Emeriti Hall. During the 2010-11 academic year, the Academic Complex underwent a major renovation including the installation of energy-efficient lighting. That year the college also started construction of a new Landscape and Horticultural Technology building as its first LEED certified building. Included among the building’s many green features are geothermal heating and cooling, photovoltaic roof panels, and a vegetated flat roof and rain collection system.

Building upon the college’s sustainability efforts, the Morris County Improvement Authority in 2012 installed solar panels over Parking Lots 2, 5, 6, 7 and 8 and on the rooftop of the Student Community Center. New exterior energy-efficient lighting also was installed by the college throughout the campus.

Also in 2012, the college purchased a one-story commercial building on Route 10 in Randolph as its first major expansion in nearly four decades. The 15,500 square-foot building located at 675 Route 10 East has allowed the college to increase classroom space to meet growing academic needs.

In 2014, the college completed an extensive renovation to the Learning Resource Center (LRC), which included consolidating the library on the second floor, a major expansion of the college’s gallery and the addition of a café.

In 2015, the Media Center, located within the LRC, was renovated and renamed in honor of late Assemblyman Alex DeCroce. That renovation was funded with $1 million from the Morris County Board of Freeholders’ capital budget and $900,000 raised by the CCM Foundation in individual, corporate, private foundation and public support.

In early 2016, the college opened its Music Technology Center, a state-of-the-art facility that houses the digital media technology, drama, media technology, music and music recording academic programs. The facility includes an experimental theater lab – theater in-the-round – that serves as a large hands-on classroom with a recording studio. Also included are two standard classrooms, an electronic music/aural comprehension classroom and piano lab, a second recording studio, scene shop, dressing rooms and multiple student practice rooms. The $8.5 million facility was constructed with funds provided through the Building Our Future Bond Act that was approved by New Jersey voters in 2012.

After serving as president for 30 years, Yaw retired in 2016 and Dr. Anthony J. Iacono became the college’s third president.
