

English Language Learning

CCM's English Language Learning (ELL) program provides English language instruction for limited English proficient adults to increase their ability to communicate in English. The content is compatible with principles of language acquisition for adult learners of English and includes skills useful in the workplace, life and academics.

ELL classes are generally offered in two segments (Part 1, Part 2) which align to sections of the book. Students will begin with Part 1 classes and progress to Part 2 in a subsequent session. **ALL STUDENTS MUST BEGIN WITH PART 1 FOR EACH LEVEL/BOOK.** There is one book specific to each class level and students will work through the book over two to three ten-week sessions. Foundations of English classes are for non-native speakers who have no or extremely limited English language communication skills. Conversational English classes increase fluency and vocabulary, but are not for the early beginner. Pronunciation classes are for students who are looking to improve their pronunciation.

Skills are integrated into reading, writing, speaking and listening formats. Progress through levels is measured by an approved standardize test or documentation of attainment of competencies. The CCM ELL program course curriculum conforms to the federally defined Workforce Development ESL levels and certificates are available in Early Beginner, Beginner, Intermediate and Advanced Intermediate levels.

The CCM ELL program also includes an on-line learning component called MyEnglishLab. MyEnglishLab provides practice exercises and language learning tasks that students either complete in the CCM Computer Lab or at home. All practice language learning activities taken from the MyEnglishLab are coordinated with each book.
