

Peripheral IV Therapy Skills

This course benefits RNs, LPNs, Radiology Technologists, EMTs and other allied health professionals whose responsibilities include intravenous peripheral catheter insertion and care, and administration of intravenous solutions.

You will acquire the knowledge and psychomotor skills needed to successfully insert a short peripheral intravenous catheter. Although the focus of the class is skill acquisition, additional content will include the assessment and care of the peripheral intravenous catheter site and a discussion of the indications and complications of infusion therapy. .
