

# CDA Educational Endorsement Certificate

The Child Development Associate (CDA) Educational Endorsement Certificate is a three-course series approved by the Council for Professional Recognition. It is ideal for those currently employed or seeking workforce entry as a childcare professional. In addition to being offered face-to-face, CDA courses are offered fully online through CCM's Virtual Campus. The CDA Educational Endorsement Certificate can be submitted to the Council for Professional Recognition as part of the CDA application process.

Grounded in research and evidence-based practice, the curriculum blends academic and professional preparation. The content is aligned with the national competency standards for the CDA Credential and prepares the students in the following goals:

- To establish and maintain a safe, healthy learning environment
- To advance physical and intellectual competence
- To support social and emotional development and provide positive guidance
- To establish positive and productive relationships with families
- To ensure a well-run, purposeful program responsive to participant needs
- To maintain a commitment to professionalism

Completing the CDA Educational Endorsement is the final step toward a career as a preschool group teacher in a childcare center, as well as careers as a paraprofessional, substitute teacher, and many other child-related careers.

## Certificates

### CDA Educational Endorsement Certificate

(P0331)

CDC-110	Early Childhood Development	3
CDC-210	Curriculum, Teaching and Learning in Early Childhood Education	3
CDC-220	CDA Capstone: Effective Preschool Practices	3

## Courses

### CDC-110. Early Childhood Development. 3 Credits.

LECT 45 hrs

This course studies the growth and development of the child from birth through age eight. It will cover a variety of factors that influence child development such as diversity, culture, health, economic and family environment. Also it provides an overview of the major theorists in the field of human development. There will be discussion regarding these theorists' contributions to understanding how children grow and learn. Students will have the opportunity to observe and report on a variety of teaching and learning venues.

### CDC-210. Curriculum, Teaching and Learning in Early Childhood Education. 3 Credits.

LECT 45 hrs

This course studies designing, implementing, and evaluating developmentally appropriate curriculum for children birth through age eight with a focus on language and literacy, social and emotional learning, creative arts, and social studies, math, science and technology. It will cover practical applications of theories and current research in early childhood education, methods of observing children's behavior and progress, and strategies for developing and using curriculum in all aspects of the daily routine. Attention will be given to anti-bias curriculum and elements of diversity that can influence learning including cultural backgrounds, gender, sexual orientation, religion, English language learners, socio-economic status, family circumstances, and children with special needs. A field work component includes observation of curriculum and teaching and learning in an Early Childhood Education setting.

**Prerequisites:** CDC-110.

### CDC-220. CDA Capstone: Effective Preschool Practices. 3 Credits.

LECT 45 hrs

This course studies effective, practical, research-based methods for developing preschool teachers. Course content is aligned with the national competency standards for the Child Development Associate (CDA) Credential. It will cover the essentials of planning a safe environment, advancing children's development, building family partnerships, program operations, professional development, authentic assessment, and principles of developmentally appropriate learning. Attention will also be given to current research on brain development in young children, designing the learning environment, professional ethics, and cultural competence.

**Prerequisites:** CDC-110 and CDC-210.

### CDC-228. Cooperative Work Experience- Child Care. 3 Credits.

COOP 45 hrs

This course provides selected students in the Early Childhood programs with job-oriented training and practical experience in a work environment. Students desiring to participate in this experience should make this intention known to the Faculty Special Projects person at the beginning of their third semester.

**Prerequisites:** Permission of department chair

**Corequisites:** CDC-229.

**CDC-229. Cooperative Work Experience-Child Care - Related Class. 1 Credit.**

LECT 15 hrs

A supplement to the cooperative work experience program, this course provides a variety of experiences to further enhance students' career development and occupational development. It also develops positive points of view toward human relationships and the responsibilities of both the employee and the employer.

**Prerequisites:** Permission of department chair

**Corequisites:** CDC-228.
