

Distance Education

Distance Education

Distance education is a convenient and flexible way to take courses for college credit. Students can take classes to earn a degree or explore personal interests. We have two types of distance education classes: online and hybrid. Since these are fully credited college classes, you must be admitted to the college to take any of these courses. Registration for these classes follows the same procedures and deadlines as traditional on-campus courses. Students should be comfortable with basic computer programs and concepts such as, but not limited to, email and attachments of files. For more information regarding these exciting learning opportunities for college credit, please consult the Virtual Campus website at: www.ccm.edu/virtual-campus (<https://www.ccm.edu/virtual-campus/>), email at: vclearning@ccm.edu or call 973-328-5332.

Virtual Campus - Online

Virtual Campus - Online courses are fully online courses, certificates or programs designed to provide students quality distance education consistent with the Virtual Campus' mission statement. Unless otherwise noted, Virtual Campus courses were developed to be taught without specific meeting times. There is no on-campus requirement. **Students in online courses should log into Blackboard on the first day of the term and not wait until the first on campus meeting.**

Virtual Campus - Hybrid

Virtual Campus - Hybrid courses are a combination of the traditional face-to-face instruction and online sessions. This may include some on-campus labs with reduced in-classroom time or other instructional designs that meet the needs of the course materials. **Students in hybrid courses should log into Blackboard on the first day of the term and not wait until the first on campus meeting.**

****Regardless of your chosen option, you will need access to a computer, a steady internet connection, a web cam & microphone.***
